Mr. Roberts, the director of the mint, has decided upon the design for the Lafayette silver dollar. At its last session Congress authorized 50,000 of these dollars to be coined in aid of the Perry & Thom Lafayette Monument association, which proposes to erect a monument to Lafayette in Paris in 1900. These dol lars will be sold for whatever premium can be obtained for them. This is expected to net a large sum, as it is believed the dollars will sell at a minimum of \$2 a piece, while the majority will bring more. If the dollars should average \$4 or \$5 each the total sum for the monument would be secured. The home-coming of Adm. Dewey

has caused a boom in the dry goods trade. The demand for ordinary cloth and prints for conversion into bunting has nearly exhausted the supply, and it has been found necessary to take higher grades of materials, including what is known aa "sixty-four square." In the trade it is estimated that at least 500,000 pieces, or 25,000 yards of bunting will be used to welcome the hero of Manila. This extraordinary demand, coming on a rising market, it is said, will influence prices greatly. Every precaution has been taken to prevent the desecration of the grave of
